Preparation

500 g strawberries

250 g preserving sugar

Wash, hull and slice the strawberries and place them in the porcelain dish. Sprinkle with the preserving sugar.

将发酵桶预加热 蒸汽 到 **100°C**

Put the porcelain dish into the preheated cooking space. Steam.

放入食物

在 蒸汽 期间为 **100 38 分钟°C**

Put the strawberry mixture in a bowl and whisk vigorously for about 5 minutes until it starts to thicken. Pour the mixture into preserving jars. Seal the jars.

To sterilise the preserving jars, put them on to the perforated cooking tray at level 1 of the warm cooking space. Steam.

放入食物

在 蒸汽 期间为 **100 45 分钟°C**

小费

It takes 1–4 days for the jam to set properly. Use more preserving sugar to achieve a firmer consistency.

配件

Porcelain dish ½ GN, depth 65 mm

Perforated cooking tray

4 preserving jars, each able to hold about 250 ml
